Profile

I am a problem solver, detail oriented and a good communicator. Technical but also creative.

I am motivated to improve and expand my skill set through experienced mentorship and challenging projects.

I enjoy working collaboratively but I can also work in projects independently.

I am often described by coworkers as a hardworking, reliable and punctual person, but also funny and easy going.

I have been lucky enough to experiment with different jobs during my career, but working as a Software Developer has convinced me that this is what I want to do on the long term.

I am looking for a dynamic and progressive company where my skills are utilized in the maximum way possible.

Employment History

Software Engineer, SSI Schäfer, Graz

MARCH 2021 – PRESENT

- Make adjustments in existing customer IT systems.
- Develop software solutions for customer system expansions and conversions.
- Responsibility for quality and functionality of developed software.
- Responsibility for assigned projects

Salesman, AT CONSULTING, Tirana

DECEMBER 2017 – AUGUST 2018

- Telephone conversations with companies in Italy on the subject of protecting the personal data of their employees (preparation for GDPR).
- Selling them a software for data management created by my company.

Account Manager (Sales), Pro Marketing, Tirana

DECEMBER 2015 – AUGUST 2016

- Phone calls to clients in Italy to set up their accounts on trading platforms for online investments, to accompany and advise them in their activity of managing their investment portfolio.

Junior Java Support Engineer, Deloitte, Tirana

AUGUST 2015 – NOVEMBER 2015

Mostly code checking and simple support for the more experienced developers.

IT Specialist, Call Center Albania, Tirana

JUNE 2014 – AUGUST 2015

- Hardware and software maintenance of the company's computers and peripherals.
- Vicidial system management.
- Network maintenance

Education

Master of Science in Computer Science, Johannes Kepler Universität Linz, Linz

OCTOBER 2018 – PRESENT

The Master in Computer Science includes six areas of specialization: Computational Engineering, Data Science, Intelligent Information Systems, Networks and Security,

Pervasive Computing, and Software Engineering. The program is research-oriented and focuses on current technologies.

Bachelor of Business Informatics, University of Tirana, Tirana

OCTOBER 2011 – SEPTEMBER 2015

The bachelor's program focuses on algorithmic modeling and an IT-specific approach to business issues.

Extra-curricular activities

Volunteer work, AIESEC, Linz

OCTOBER 2018 – MARCH 2021

Member of AIESEC in Linz since October 2018. Involved in many areas, but my biggest contribution is in the sales department, also due to my previous work experiences.
